

The **Elm**TM System

Ultra Slim LED Panel Lights

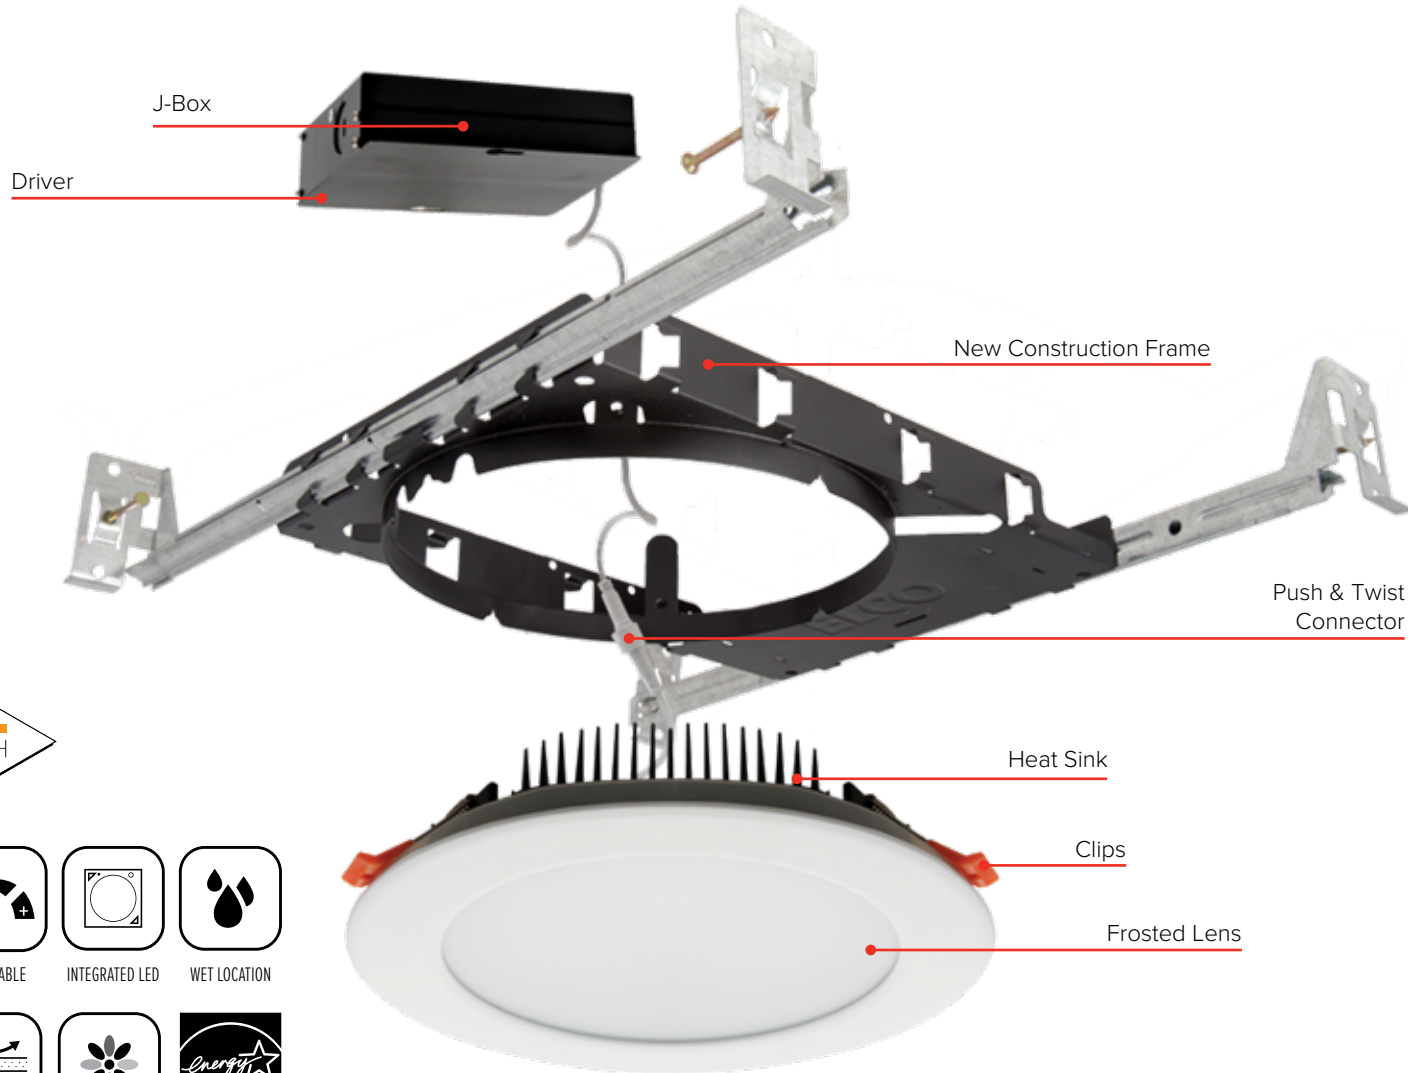

2" & 3" LED Gimbal **Lights**

4", 6" & 8" LED Panel **Lights**

The ElmTM System

ELCO Lighting's LED ElmTM System was designed as a slim panel LED light for new construction and remodel applications. It is offered in 4" to 8", in round or square with a white, nickel or bronze finish. The product was engineered to have a smooth lumen distribution ranging from a clean 500 to a powerful 2200 lumen all Wet Location listed. The item can be specified in either 3000K or 4000K to fit most residential and commercial applications. It is a slim simple light source for your everyday needs.
